THIS IS NOVEMBER?

Picking fresh ripe strawberries from the patch in this area, this late in the year is hard to believe but that is what took place at the James Simmerman home at 908 Crown Street on Thanksgiving Day. The lack of a hard freeze and snow have kept the plants blooming and bearing this late. Mr. Simmerman is shown picking the berries at his home.

Airliner Crashes; 118 Dead

STE. THERESE, Que. UPI — An American built Canadian jetliner, bucking a driving rain storm crashed with explosive impact Friday night, killed all 118 persons aboard.

No. U. S. citizens were believed aboard the doomed airliner.

The disaster happened five minutes after take off from near by Montreal. It was the worst air crash in Canadian history and second worst in the history of commercial aviation involving a single plane.

The Trans Canada Air Lines DC 8 hit with such force that bodies of most of the victims were torn to bits. The plane was believed to have exploded on impact. It burned fiercely for three hours.

Salvage and identification teams that rushed to the scene were hampered by foot deep mud into which the plane plunged at 6:30 p.m. EST.

A crater, 90 feet in diameter and six feet deep was ploughed in the rain soaked field by the plane carrying 111 passengers and a crew of seven to their deaths.

Bits of wreckage were strewn over about a hundred yard area and the remnants of charred clothing hung from nearby trees.

Two young men were seen in the vicinity of the restaurant. Their automobile was later found abandoned on U. S. 36, west of the Ind. 43 intersection.

State police said the auto was from Terre Haute and was believed to be a stolen car.

Churchill Is 89

LONDON UPI — Sir Winston Churchill, ending a year of heartbreak, quietly observed his 89th birthday today with a 19½ lb. brandy laced cake that stressed his imperishable ties with the United States.

WASHINGTON UPI — An extraordinary seven member commission, headed by the nation's Chief Justice, will investigate the assassination of President Kennedy and the subsequent murder of his accused slayer.

President Johnson issued an executive order establishing the commission Friday night. He instructed the panel "to satisfy itself that the truth is known as far as it can be discovered, and to report its findings and conclusions" to him, to the American people and to the world.

The White House announcement said the commission, named after Johnson consulted with congressional leaders of both parties, was "to study and report upon all facts and circumstances relating to the assassination of the late president, John F. Kennedy, and the man charged with the assassination," Lee Harvey Oswald.

Besides Warren, the other members named to the panel were Sens. Richard B. Russell, D. Ga., and John Sherman Cooper, R. Ky.; Reps. Hale Boggs, D. La., and Gerald R. Ford, R. Mich.; Allen W. Dulles, former director of the Central Intelligence Agency, and John J. McCloy former special adviser on disarmament to President Kennedy. All are lawyers.

Johnson spoke with each man personally to ask them to serve.

School System Faces Two Suits

MARTINSVILLE UPI — Two suits asking \$150,000 each in damages have been filed against the Martinsville school system by the fathers of pupils who charge they were penalized for driving cars to school one day.

Clyde Wolff and James R. Terhune sought the damages in Morgan Superior Court, charging that Wolff's son, Marvin, and Terhune's daughter, Donna, were given 9 per cent reductions in their grades and as a result each failed in one or more subjects.

A school rule forbids pupils driving to school unless approval is given by parents and the school officials. Parents approved in both cases, and Donna and Marvin parked several blocks from the school to avoid violating a school parking lot prohibition.

Costs Of Living Up In October

WASHINGTON UPI — Living costs rose by a penny per \$10 spent during October, reach a new record in spite of a decline in overall prices for food, the government report said.

A Labor Department spokesman said the consumer price index climbed one tenth of one per cent from September to 107.2 in October. This meant that goods and services which could be purchased for \$10 during the 1957-59 base period cost \$10.72 during October.

The spokesman said, however, the increase was "strictly seasonal" and not an omen that a new inflationary trend was in the offing.

Ponder Appeal Of Tax Ruling

INDIANAPOLIS UPI — Officials of the Indiana Retired Teachers' Community at Greenwood were undecided regarding an appeal from a ruling which eventually will strip the home of exemption from property taxes.

The Indiana State Board of Tax Commissioners ruled Tuesday that the home, known as Greenwood Village, could retain its tax exempt status for 1964 but will lose it after that.

The board's ruling, which could also affect about 50 other such retirement homes in the state, reversed the Johnson County Board of Review which had ruled against any tax exemption for the home. However, it cleared the way for future taxation of the home.

Chairman Richard Worley said that a tax exemption certificate given to the home in 1961 will remain in effect until Jan. 1. The home then will become subject to assessment for 1964 property taxes payable in 1965.

Students Jailed By Paris Police

PARIS UPI — An unspecified number of students are in jail today on charges of deliberately wounding policemen during Friday's anti-government rioting.

Forty-one police were injured

when they clashed with an estimated 10,000 university students who raged through the city's Latin Quarter to protest what they say are insufficient education facilities.

A police spokesman told students' representatives early today that most of the 316 students brought in for questioning would be released, but that an unspecified number would be charged with assault.

The mob was the largest Paris had seen since left wing organizations grouped thousands of persons in early 1962 to protest against rightist terrorism here and in Algeria.

Student and teacher organizations have complained for the last five years that advanced schools here are becoming intolerably overcrowded.

THANK YOU NOTE

I wish to express my heart-felt thanks to Dr. Ellett, Dr. Wiseman, and Dr. Schaeffer for their services; the Putnam County Hospital, the nurses, nurse aids and all their employees for their kindness; a most gracious thanks to the ministers who called and my neighbors and relatives and friends for their cards and visits; and to all who helped in any way to make my stay in the hospital and home more pleasant. Thanks and bless you all.

The difference between a good and a bad contract is often just the difference between an eight and nine. And even if you have the wrong card, the opponents may come to your rescue.

Opening lead — ♣ 4
North didn't enjoy jumping to three hearts with only three trumps, but he couldn't think of a better bid. To tell the truth, neither can I.

South went on to game even though his hearts were headed by K-8. His contract would have been better if he had held K-9, but South couldn't see this at the time.

Declarer won the first trick in dummy by the queen of clubs and immediately returned the king of diamonds. West took the ace, and that was that. Four hearts bid and made.

The defenders could take two

spades, but nothing else. Declarer could ruff a third spade in dummy if the opponents led the suit a third time. In any case, he could draw trumps and run off enough tricks in diamonds and clubs to make the contract.

SHOULD WAIT

West should wait to let his ace of diamonds grow riper. Instead of taking the first diamond West should wait for the second diamond trick.

Then West leads a third diamond, East ruffs with the nine of hearts. If South over-ruffs, West will get a trump trick. If South fails to over-ruff the defenders get a trump trick then and there in addition to their diamond and two spades.

South cannot avoid this fate by drawing trumps, since then the defenders can take three spade tricks and the ace of diamonds.

DAILY QUESTION

As declarer you have passed. The next player bids one diamond, your partner passes, and the other opponent bids one heart. You hold: S-K J 7 4 H-J 10 5 D-A 9 7 2 C-4 2. What do you say?

Answer: Pass. It is very dangerous to overcall on a weak suit when your partner passes and both opponents bid. (The actual bid of one spade was made in a match in Europe, but it not recommended.)

Tigers, Quakers Clash Tonight

Whatever in in store this season for DePauw's basketball warriors will begin unfolding tonight at 8 in Richmond.

For the Tigers, hoping to start the campaign in the right vein,

the game quite appropriately will be played in Earlham's Trueblood Fieldhouse.

Earlham approaches tonight's fray with a two-game jump on DePauw. The Quakers lost a pair of verdicts last weekend to Manchester 102-82 and to Marian, 87-73, in their own City of Richmond tourney.

Tonight's skirmish marks the 70th battle between the two one-frequent foes. DePauw holds a wide edge, 52-17, including an eight-game streak dating back to 1946-47. The teams met last in 1955-56 and DePauw won it, 89-79.

All of coach Elmer McCall's veteran Tigers will be in the starting lineup. This letterman quintet includes Dean Rush (6-4) and Jon Lundquist (6-4) at the forwards, center Bob Hutton (6-6), and guards Bruce Osborne (6-3) and Jim Callane (5-10).

Callane, Hutto and Rush were starters on last year's team which won five of 23 games, but ended up grabbing two of their last three.

Caracas Calm Before Election

CARACAS UPI — The campaign for Sunday's presidential election wound up last midnight with no sign of the outbreak of Castro Communist violence that has been expected.

People turned out by the thousands to attend the open air political meetings which were held on almost every corner in downtown Caracas. Some rushed from one meeting to another, trying to attend as many as possible.

The city quieted at midnight, the legal deadline for campaigning. Heavily armed troops and police patrolled the streets in the predawn darkness, but there was no immediate report of any Communist effort to enforce the "terror curfew" that the Communists had threatened at midnight.

Johnson Stresses Economy

WASHINGTON UPI — President Johnson told the nation's military leaders yesterday that he expects them to abide by his economy pledge to Congress that the government will get "a dollar's value for a dollar spent" under his regime.

The White House said Johnson emphasized this point to the Joint Chiefs of Staff at his first formal meeting with them as

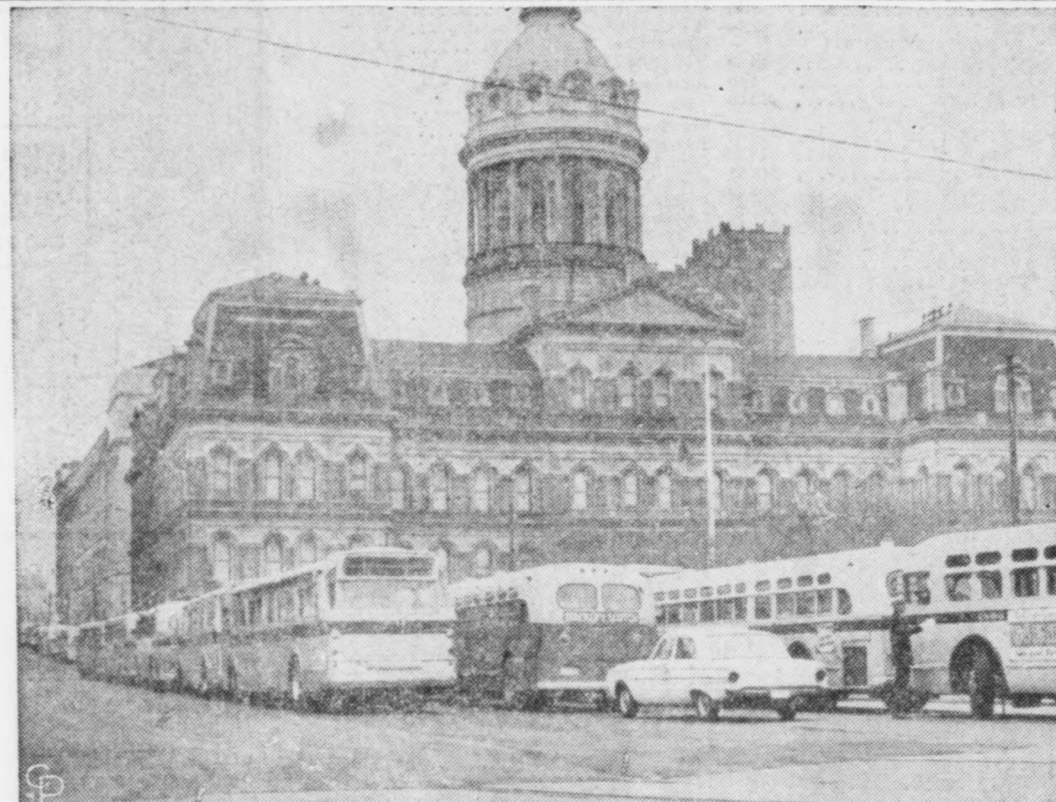

President.

Acting Press Secretary Andrew T. Hatcher said the leaders outlined their operating procedures to Johnson and that the new President did not contemplate calling for any change in this arrangement.

Johnson's meeting with Gen. Maxwell D. Taylor, Chairman, and the other joint chiefs who are the military heads of each armed service, began a busy round of conferences today by the President on international and domestic matters.

He began his day with an intelligence briefing from McGeorge Bundy, special assistant for national security affairs.

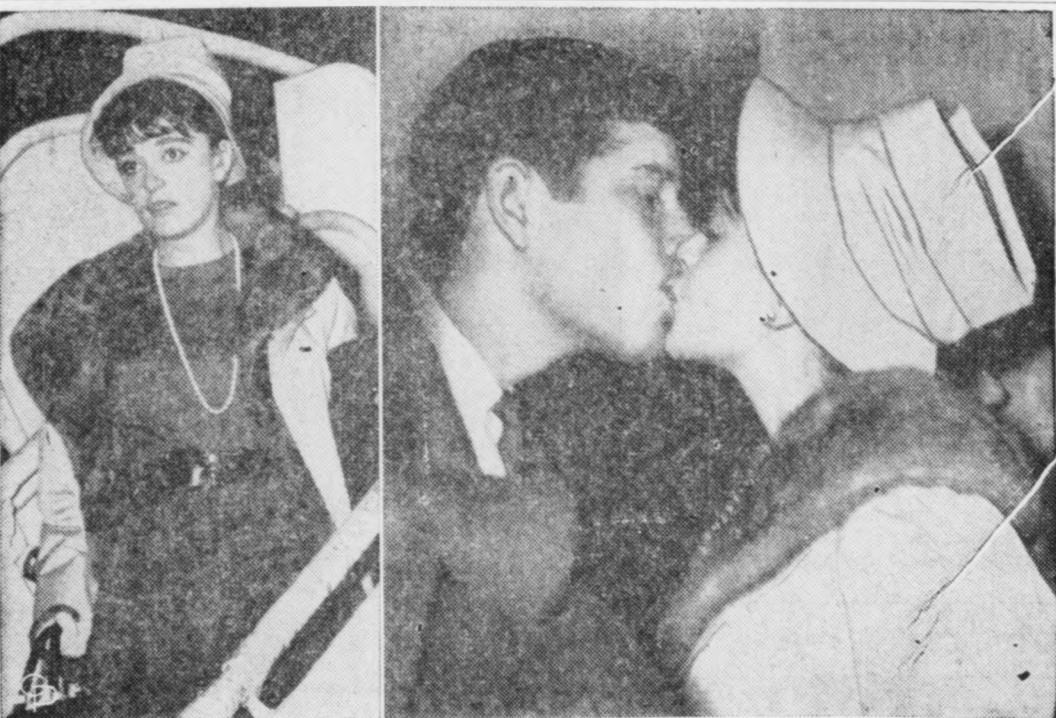

The Bundy briefing will be come a daily event. Under the late President John F. Kennedy, the intelligence briefings had been conducted by military aides.

In the front row (from left) are Dr. Heinrich Lubke, President of West Germany; President Charles De Gaulle of France; Queen Frederika of Greece; German Chancellor Ludwig Erhard; Belgium's King Baudouin; Ethiopia's Emperor Haile Selassie; President Diosdado Macapal of the Philippines, and President-elect of Korea, Park Chung Hee.

JOHNSON PROBLEMS—The new face in the White House, President Lyndon Johnson's, doesn't make the world any safer for democracy, at least not yet. These are the same principal international problems that plagued John Kennedy.

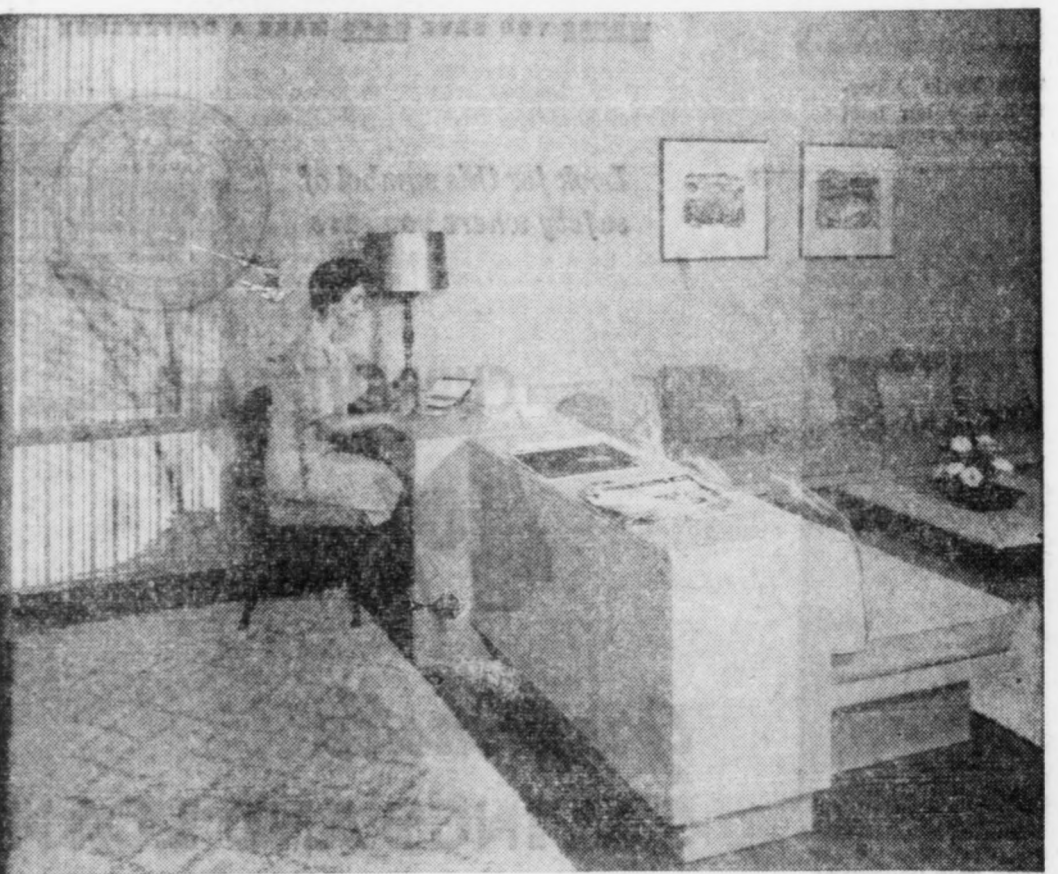

PROBABLE WEAPON AND ASSAULT SITE—Dallas police Lieut. Carl Day (left) strides from the Texas School Book Depository warehouse carrying the foreign-made rifle equipped with telescopic sight identified as the weapon used in assassination of President Kennedy. At the right (arrow) is the window from which the shots which killed the President and wounded Texas Gov. John Connally were fired.

TRAGIC JOURNEY HOME BEGINS—A long-lens view of Dallas' Parkland Hospital shortly after the death of President John F. Kennedy, as a hearse bearing a bronze casket containing his remains leaves for nearby Love Field and the sorrowful journey back to Washington. Taken aboard the presidential jet aircraft, the casket arrived in the nation's capital Friday evening.

Bob Hope stars Friday nights on NBC-TV

Bob Hope (speaking for Uncle Sam) gives our newspaperboys an "Oscar"

If it were up to me to decide the Oscars (am I kidding?), I'd give one to America's newspaperboys for their performance.

I mean their day-after-day performance, fair weather or foul, delivering papers and good cheer to their customers. Learning how to be good neighbors and good businessmen too.

But what I'm really here for is to tell you what a job newspaperboys have done for the Treasury Department—helping to promote U.S. Savings Bonds and Stamps, and buying plenty themselves out of their earnings.

They've found Bonds a great way to save for a college education—and as you and I know, they're a great way to keep our country strong too.

So this is Bob (Uncle Sam) Hope saying thanks for all of us to all you newspaperboys—our Hope (if you'll pardon the expression) of the future.

Keep freedom in your future with

Speaking of YOUR HEALTH...

By LESTER L. COLEMAN, M.D.

Caesarean Births

"ONCE a Caesarean, always a Caesarean" seems to be an obstetrical axiom. Apparently this has scientific validity, for usually the same reasons existing for the delivery of the first child by Caesarean section exist for the subsequent ones.

A legendary concept associated with Caesarean births states that a woman can have no more than three children by this surgical method. This idea has not been scientifically substantiated.

In an effort to reduce the anxiety of women who have had previous Caesarean deliveries, a study was made on 1,000 such cases. Dr. Jean E. Paquin, at the Providence Hospital in Washington, statistically recorded the interesting findings in the group over a ten-year period.

Enlightening Statistics
During this time, approximately 35,000 normal deliveries occurred. The ratio of Caesarean births was about one to every 33 normal births. The enlightening statistics revealed that some mothers had as many as four, six and even eight children by Caesarean.

Caesarean deliveries have become far less dangerous because of the present age of antibiotics, excellent anesthesia and exquisitely planned ideal time for the surgery.

Dr. Paquin states that "The idea that a woman should have a hysterectomy or have her ovarian tubes tied off after her third Caesarean is a fallacy." He further states that there is no need for mounting fear and anxiety in women who are to have Caesareans, for the operation is no longer considered a great hazard to the mother or the child.

Hopes To Marry Russian Girl

MOSCOW UPI — An unemployed Alaskan defied officialdom today in a bid to win Premier Nikita S. Khrushchev's approval for his marriage to a Russian girl.

Lawrence Brayton, 36 of Fairbanks, was supposed to leave Russia before midnight Friday, when his visa expired. He returned to his room at the Metropole Hotel, however, and said he would remain here until he marries Rosita A. Schiffman, a 25-year-old speech therapist.

Brayton and Miss Schiffman have completed preliminary formalities but the Russians require that a notice of intent be filed several weeks in advance of the ceremony. The couple scheduled their wedding for Dec. 17, but the Russians have been unwilling to extend Brayton's visa.

Johnson Will Study Budget

WASHINGTON UPI — President Johnson, putting aside any thought of a day off, meets with White House aides today in a further effort to set up the plans and procedures of his week old administration.

The White House said only that the Chief Executive had scheduled a full day of work today, but it was believed possible that much of Johnson's time would be devoted to questions of next year's budget.

Federal agencies and departments are nearing final decisions on their budget requests for the 12 months starting next July 1. The President is to submit the administration's proposed budget for fiscal 1965 to Congress by Jan. 18.

During a strenuous 13 hour day at the White House Friday, Johnson appointed a "blue ribbon" commission, headed by Chief Justice Earl Warren, to investigate the assassination of President John F. Kennedy and the subsequent murder of his accused slayer, Lee Harvey Oswald.

The White House said Johnson instructed the seven member bipartisan panel, similar to one set up to investigate the Japanese attack on Pearl Harbor, "to satisfy itself that the truth is known as far as it can be discovered, and to report its findings and conclusions to him, to the American people, and to the world."

Johnson arrived at his White House office at 9:36 a. m., EST Friday and immediately began a heavy schedule of meetings that ranged over the entire spectrum of domestic and foreign affairs. He did not leave for his Spring Valley home until 10:27 p. m., EST.

BAKER CASE IMPACT COULD BE SERIOUS SHADOW OF AFFAIRS COULD LINGER LONG

By HENRY CATHCART

Central Press Washington Writer

WASHINGTON—The Bobby Baker affair is supplying cynical Washington with a lot of humor and wise innuendo, but its potential for damage to government is real and serious.

Baker was the secretary of the Senate majority, a position of some prestige and influence, but one that through the years has become identified as that of a glorified messenger boy for the Senate powers.

Because of Baker's close connections with some senators there is a pervasive feeling in Washington that any wrongdoings are, in fact, the transgressions of senators—that in at least a part of the unfolding picture of Baker's personal and business affairs, he was acting as "front man" for someone else.

It is this factor that arouses the greatest concern among senators who have long sought a way to elevate the level of conduct of all legislators. Baker alone can be dispensed with quickly, but Baker as a man whose business and personal affairs are inextricably interwoven with those of a number of senators is quite another matter.

Because of the inherent threat to some senators, there have been numerous expressions that the committee charged with the inquiry will make an effort to sweep the whole mess under the rug. Perhaps they will try, but the affair seems to have developed too much momentum for that.

It is true that the constantly recurring reports of scandals in Washington over the past 10 to 15 years has left the public somewhat jaded. The current reports are bringing nowhere near the reaction engendered by the milk coat and five per cent probes of the closing period of the Truman administration.

This is regrettable of itself, for if the federal government is to hold the respect of the voters, it must keep itself above reproach, and the only practical way to do that is to have a vigilant public ready to vote the rascals out.

● OCCUPATIONAL AILMENT?—Sen. Edmund S. Muskie of Maine hasn't been feeling well lately. Nothing serious—it's just that he has back pains that make life uncomfortable for him. The other day, he was explaining the reason behind his slow and painful movements to a group, and came up with a new diagnosis. He said his doctors had defined his condition as "politician's back—too much twisting and turning."

● CIRCULATION SLUMP?—The United States government's Children's Bureau publication, "Baby Book," is one of the most popular items on Capitol Hill. Members of Congress delight in sending copies to new and prospective parents because of its detailed instructions on infant care. However, this year, the agency has found that
